EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eugene C. Rzucidlo on June 14, 2006.

The application has been amended as follows:

In claim 55, in line 1 after "sheet metal part comprising a single" inserted
--continuous--.

In claim 55, in line 6 after "adapted for attachment to" deleted "a" and replaced
with --said--.

In claim 56, in line 1 after "in claim" deleted "54" and replaced with --55--.

In claim 57, in line 1 after "in claim" deleted "54" and replaced with --55--.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

The cross-hatching of element **128** in Figures 3a,3c,3e and 3f should be replaced with the proper cross-hatching based on the material of such element.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance:

Art Unit: 3679

As to claim 55, Tinnerman (US 2,342,170) discloses the claimed combination with the exception of the sheet metal part comprising a single continuous piece of sheet metal, the sheet metal part having a cylindrical side wall and continuous base receiving the first end of the functional element with an end face of the first end contacting the continuous base, material of the sheet metal part being deformed radially inwardly of the thread of the functional element at the first end and engaging the features.

There is no teaching or suggestion, absent the applicants' own disclosure, for one having ordinary skill in the art at the time the invention was made to modify the combination as disclosed by Tinnerman to have the above mentioned elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
